Research Objectives and Experience

Overall Goal:

Positively impactful AI systems

Questions:

How can we either create a positive impact immediately, or a sustained impact that will not become obsolete with the next GPT-X?

How can we make sure good results in the lab lead to good results in the real world?

Areas:

AI agents, AI safety, NLP, evaluation, reliability

Applications:

Misinformation, education, political polarization, COVID-19, human trafficking, Go
